MAP Day Sessions by Time

9:00

Opening Session with President Hanno

President Hanno welcomes the community to MAP Day.

9:20

Activating Events: A History of Wheaton Students Responding to Crises, with Mark Armstrong
Wheaton has seen its fair share of global crises in its 187 years, from wars to civil rights movements to viral pandemics. Each time, Wheaton students found ways to meet the moment. This session will explore several of those historical instances, and attempt to draw parallels to our current moment.

Managing Financial Independence: Where Do I Start?, with Kyrie Johnson

This session will provide guidance as you think about the next 6 months and help you to start planning for your transition to financial independence.

NIH Fellowships: Alumni Conversations, with Megan Darrell and Carina Sclafani

Join Megan and Carina as they share their experiences in securing a post-graduate health professions fellowship and learn about their first year as fellows. This session is for upperclass students tracking towards the health professions, including but not limited to medicine, physicians assistant, and physical therapy. Looking forward to seeing you then!!

Restorative Interventions: Coping with Group Conflict and Harm, with Cheysea Federle

In this session you will learn the first steps in how to respond and heal from conflicts among a group. These skills can be used to intervene when harm occurs as well as prevent harm from happening in the future by establishing shared values and boundaries. You will learn how to use communication skills that are in line with restorative justice, accountability and being trauma-informed.

Sophomore Experience Session for First Years, with Steve Viveiros, Susan Friedman, Rachel McElaney, and Matt Wheeler

This required session for first year students will review the Sophomore Experience as a curriculum requirement. Why a required experience? How can you use this to your advantage? What are your options? Choose this session if you took: Medical Mysteries, A Better and More Sustainable Future, or Contact as your FYE.

Study Abroad: Spring 2022 - Plan Ahead for Success!, with Alida Gomez

As study abroad slowly returns to its pre-COVID accessibility, now is the perfect time to start thinking about Spring 2022 programs! Join Alida Gomez from Global Ed to hear about the timeline for applying for programs and scholarships, as well as what study abroad will look like in a "post-COVID" world.

9:40

Compass Options for Sophomores and Juniors, with Karen McCormack

Learn about the options available to sophomores and juniors in the Compass Curriculum, including LEAPS and the Honors & Scholars programs.

10:00

Academic Fair: Business & Management

Come learn about the Business and Management major.

Academic Fair: Chemistry, with Matthew Evans

Come meet the faculty and chat about the Chemistry major, research opportunities, and upcoming courses.

Academic Fair: Classics, with Sierra Proft

This session will introduce you to a classics/ancient studies/language degree, and will explain how earning that degree (major or minor) can lead to more careers than you probably thought! You will hear several alums talk about their paths after Wheaton with a Classics or Ancient Studies degree, and we will end the session with an exciting game of Classics Degree Career Path bingo!

Academic Fair: Computer Science and your Future, with Mark Leblanc and Mike Gousie, with Mark Leblanc and Mike Gousie

We will discuss the introductory steps for starting courses in the computer science major and minor. Faculty will share how our introductory content (computational thinking, learning to program in Python and C++) are the foundations to prepare for a world of computing work beyond Wheaton.

Academic Fair: Environmental Science and Environmental Studies, with Scott Shumway *Meet the department and plan for a major in Environmental Science or a minor in Environmental Studies.*

Academic Fair: Hispanic and Italian Studies: Languages and Cultures with Alberto Bianci

Are you interested in Latin American, Italian or Spanish cultures? Come and find out how the cultural and linguistic competence provided by the Department of Hispanic and Italian Studies adds value to your Liberal Arts education and increases your professional opportunities in business, fashion and design, the food and wine industry, and more.

Academic Fair: History, with Anni Cecil

Learn about the history major and meet the faculty.

Academic Fair: Neuroscience, with Robert Morris

What is Neuroscience? What is the Neuroscience major? What can you do as a Neuroscience major at Wheaton and beyond? A brief presentation will answer these questions with time for Q&A.

Academic Fair: Philosophy: What it is, and What You Can Do With it, with John Partridge

Learn about philosophy at Wheaton by meeting current students and hearing from recent alums. See how there are paths through the major or minor that link you to your other interests. Discover how philosophy trains students in critical thinking and analytical reasoning. Learn how developing these skills and various intellectual virtues prepares you for success on the job market and for living a life of meaning and integrity.

Academic Fair: Women's and Gender Studies, with Francoise Rosset

Are you interested in the Women and Gender Studies Program? Come ask your questions, hear about the program and learn more!

May Fellows Q&A, with Will Coleman

Get to know the May Fellows program with a Q&A session with members of the May Fellows Advisory Board.

Navigating the Compass Curriculum, with Karen McCormack

Make the most out of your Wheaton education through the various pathways and opportunities in the Compass Curriculum.

Proposals! How YOU can use your SGA to make an impact, with Abaigeal (Abba) Lypps

In this program members of the SGA will go over how ANY STUDENT can write and bring a proposal to SGA to be voted on, give examples of what you can do with that, and show you how to write a good proposal in the form of an interactive presentation.

Spring Virtual Career Fair, with Ally Baldwin

The Spring Virtual Career Fair is for all students interested in speaking with employers about internships, part-time work, or full-time opportunities. There are two options for connecting with employers during the fair. You can sign up for individual conversations, which are ten minutes long OR you can sign up for group sessions, which are thirty minutes long. The goal is for the virtual fair experience to be customized to fit your interests and schedule.

STEM Fellowships & Scholarships, with Susan Friedman

Come find out about the Goldwater Scholarship and NSF funding opportunities.

Sustainability Board Ecobrick Stuffing, with Delia MacLaughlin

Join the Sustainability Board for an interactive event as we stuff water bottles with the plastic waste collected from campus residence halls! The bottles will be cemented into bricks for our on-campus pollinator garden.

10:20

Academic Fair: Biology at Wheaton, with Laura Ekstrom

Come check out the new and exciting changes that are taking place in the Biology Department! We have been working to develop new programming to make both our courses and research opportunities more equitable and attainable. Come learn how to navigate your path in Wheaton Biology - whether you're just starting out or already in it!

Academic Fair: Creative Writing Program Information, with Kent Shaw

The Creative Writing Program offers introductory and advanced workshops every semester. This session will offer a view into the newly redesigned major, as well as the opportunities in writing fiction, playwriting, or poetry for non-majors.

Academic Fair: Education, with Scott Gelber

This session will introduce students to Wheaton's teacher licensure programs.

Academic Fair: Engaging in Music at Wheaton, with Ann Sears

Join us for an informal discussion about academic and musical opportunities for all students at Wheaton, including how live performance will return to campus.

Academic Fair: Physics, Astronomy and Engineering, with Jason Goodman

Are you considering a major or minor in physics or astronomy? Thinking about our engineering dual degree program? Attend this short info session to learn more about your next steps!

Academic Fair: Political Science and International Relations Majors, with Jon Chow and Nick Dorzweiler

Join Profs. Jon Chow and Nick Dorzweiler for an overview of the Political Science and International Relations Majors.

Academic Fair: Public Health information session, with Michael Berg, Gabriela Torres, and Kate Mason

Come learn about the Public Health major and minor and hear about our classes and programs

Academic Fair: Religion, with Jefferey Timm

Drop by and get answers to your questions about the Religion major!

Academic Fair: Russian Studies at Wheaton, with Francoise Rosset and Tom Dolack

Join us for an introduction to Russian at Wheaton!

Fulbright Student Programs - Post-Grad Fellowship Opportunity with Steve Viveiros *Come to learn about teaching, studying or doing research abroad after you graduate through the Fulbright Program. This interactive flash session will review the options and details of the program and answer any questions you might have.*

10:40

Academic Fair: Anthropology, with Gabriela Torres

Understanding culture is key in today's world whether it is in the fields of healthcare, marketing, education, or politics. Come and learn how understanding culture can add to your ability to make effective and social justice-inspired change in the career of your choosing.

Academic Fair: Biochemistry - Is it Right for You?, with Jennifer Lanni and Hilary Gaudet

This session will provide an overview of the Biochemistry major and its courses. You will meet the academic advisors for Biochemistry, Professor Hilary Gaudet (Chemistry) and Professor Jenny Lanni (Biology) and learn about the recommended course progression for students considering this major. You will also learn about how this major can aid those pursuing a pre-health track to fulfill their course requirements.

Academic Fair: Bioinformatics, with Shawn McCafferty and Mark LeBlanc

Interested in the exciting, rapidly evolving field of Bioinformatics? Intrigued by the nexus of computer science, statistics, and biology? Then come join us for the Bioinformatics MAP session, where Professors Mark LeBlanc (CS) and Shawn McCafferty (BIO) will discuss the Bioinformatics major, along with career and research opportunities in this increasing important field.

Academic Fair: English and Writing Studies, with Winter Jade Werner

Join us for a presentation of Literary and Writing Studies at Wheaton.

Academic Fair: French, with Jonathon Walsh

Drop by to meet French faculty! You'll receive an introduction to the requirements for the French major and minor, how it combines with other disciplines, and the benefits of studying abroad in a French-speaking country.

Academic Fair: German, with Tessa Lee

What are the opportunities during your time and after studying German at Wheaton? What about internships? scholarships? friendships? and other possibilities with a degree in German? Join us to find out or ask questions.

Academic Fair: History of Art, with Ellen McBreen

*Join students and profs in the History of Art for a caption contest introduction to Sophomore Experience fall classes exploring careers in the arts. How can our Fall 2021 classes get *you* on track for a life-long connection with the visual arts?*

Academic Fair: Psychology, with Rolf Nelson

An introduction to the Psychology major and careers in the field.

Academic Fair: Sociology, with Justin Schupp

Come explore the possibilities for classes, internships, and careers with a sociology major or minor.

Global Honors: Global Perspectives and Careers, with Fran F de Alba

Round table presentation with two alumni presenting for 5 mins on the benefit and need of having a global perspective and how that has helped them in their careers.

Navigating The Undeclared Experience, with Susan Friedman

Come explore ways you can explore possible majors and minors to explore.

Pre-Health Society Meet and Greet, with Nicholas Kelly

Are you interested in Pre-Health? Stop by the science centers, where we will be waiting to meet you with informational packets catered to underclassmen pre-health students and for students who are interested in pre-health careers. We hope to put some faces behind the names of our group.

Rhodes, Marshall, Mitchell, Schwartzman - Competitive Post-Grad Fellowships Flash Session, with Steve Viveiros

Come to learn about these competitive fellowships and scholarships. This interactive flash session will review the options and details of the awards and answer any questions you might have.

Semester in the City, with Stephanie Morales

Come learn about Semester in the City! SITC is a program offered to Wheaton students (and beyond) where you can earn a full semester's worth of Wheaton credit to live and work in Boston. Be matched with an internship in the social sector, live in awesome apartments in a dynamic city, and get ready to learn in a hands-on way through two innovative courses on professional development and social change!

11:00

Academic Fair: Film and New Media Studies, with Josh Stenger

This session is designed for anyone who is interested in learning more about the Film and New Media Studies major and the many pathways through it that can help you reach your academic, artistic, professional, and/or personal goals. In addition to going over major requirements and courses, the session will also include information about related study abroad programs, internship opportunities, and popular double major combinations.

Academic Fair: Math Major Chats, with Rachel Decoste

Come meet with some students who are pursuing a math major. Hear about their experiences and ask questions. Faculty will also be present.

Academic Fair: NEW MINOR Global Literary Studies

Join us to explore the NEW Global Literary Studies Minor. This exciting minor offers students the opportunity to read and interpret literature and texts of different cultures and languages with a broadly defined focus on social justice ideals as understood within rich and diverse international contexts across time.

Academic Planning with DegreeWorks, with Rachel McElaney

Learn how to navigate and use DegreeWorks as an academic planning tool.

Declaring A Major: The Process, with Susan Friedman

Come learn how to declare a major and minor.

FabAcademy Info Session, with Madison Dunaway

This Info Session is intended for students who are interested in applying to participate next year or in the future.

Health Professions Advising - for 1st and 2nd Year Students, with Steve Viveiros

Join us to define next steps for course planning and building experience working in health professions.

Restorative Interventions: Coping with Group Conflict and Harm, with Cheylsea Federle

In this session you will learn the first steps in how to respond and heal from conflicts among a group. These skills can be used to intervene when harm occurs as well as prevent harm from happening in the future by establishing shared values and boundaries. You will learn how to use communication skills that are in line with restorative justice, accountability and being trauma- informed.

Taylor & Lane Scholars Info Session, with Leah Niederstadt

Join us to learn more about becoming a Taylor & Lane Scholar and to ask any questions you may have about this social-justice focused honors program.

Using Social Media For Internships & Jobs, with C. C. Chapman

This session will help you use your social media channels to network and find jobs/internships.

Watson Fellowship Information Session, with Lisa Gavigan

Learn about the Thomas J. Watson Fellowship post-graduate opportunity and review the application process.

What's the Point of Interfaith Work on a "Secular" Campus?, with Ann Grabowski and Caleigh Grogan

Some student leaders from the Interfaith House and the Interfaith Council will discuss how their work and programming benefits the Wheaton community, how other students can get more involved, and dispel some myths about what "Interfaith" work and dialogue is.

11:20

A Discussion on Mental Health and the College Experience, with Will Coleman

This is an opportunity to see the May Fellows programming in action, please come with your impressions and ideas on the current status of mental health on college campuses! We will host an open discussion based on this article:

<https://www.insidehighered.com/news/2020/07/13/survey-finds-higher-prevalence-depression-among-students-and-difficulties-accessing>

Burnout - Everyone is feeling it - Now what do we do about it?, with Valerie Tobia

After a year of COVID, most everyone is feeling the effects of burnout in multiple areas of their lives. Join the Counseling Center staff to talk about identifying signs of burnout, how burnout impacts different dimensions of our wellness, and discuss ways to mitigate these symptoms. Students will walk away with tangible skills and ideas of how to care for themselves and their community while we all continue to live in a time of great challenge and change. Note: During this presentation, you will need paper and a drawing utensil.

Dance Workshop, with Allison Chaves and the students of TRYBE Dance Group

Trybe will hold a virtual workshop in which current Trybe members will teach a short dance.

Eliza Wheaton Scholars program, with Karen McCormack

Learn about why you might consider the Eliza Wheaton Scholars program, how to track your progress toward completion, and why this is a prerequisite for Latin Honors for the class of 2024 and beyond. EWS is only available to first year students.

Semester in the City, with Stephanie Morales

Come learn about Semester in the City! SITC is a program offered to Wheaton students (and beyond) where you can earn a full semester's worth of Wheaton credit to live and work in Boston. Be matched with an internship in the social sector, live in awesome apartments in a dynamic city, and get ready to learn in a hands-on way through two innovative courses on professional development and social change!

Watson Fellowship Info Session, with Lisa Gavigan

Learn about the Thomas J. Watson Fellowship post-graduate opportunity and review the application process.

11:40

A guide to student activism, with Danielle McConnell and Mikaela Savarese

There will be a short slide show to provide introductions to the 2-3 panelists speakers introducing key components of student activism and making it their career. These speakers will discuss racial, gender, and environmental activism. We will also share experiences starting and managing community service and nonprofit work. There will be an open Q&A after.

Current Events in Politics, with Sydney Murphy

Join us for a discussion about current events in politics!

Fulbright Student Programs - Post-Grad Fellowship Opportunity, with Steve Viveiros

Students will learn essentials of the Fulbright Program and follow-up with advising staff and other faculty mentors to begin planning for this possible opportunity in their future.

LEAPS!: Introducing Design & Fabrication, Global Fashion, Content Marketing, Social Research, and Criminal Justice, with Karen McCormack

Come learn about career-focused LEAPS in Content Marketing, Social Research, Global Fashion, Criminal Justice & Reform, and Fabrication.

LEAPS: Teaching Second Languages, with Mary Beth Tierney-Tello and Scott Gelber

Learn about a new LEAPS program that will help students develop the skills they need to teach a second language. Students will complement their study of a foreign language with several relevant education courses. In addition, students will complete at least one 1/2 credit course providing practical experience with second language acquisition and teaching methods.

S.O.L.E., the Rules of 7, and Student Life Balance, with Candice Appiah and Jernora Gross

In a regular semester S.O.L.E practices 10 hours a week with added rehearsals leading up to performance days. Finding a balance between academic, social, and physical health is hard but there are so many ways in which members of S.O.L.E have found ways to make balance possible. Come learn tips and strategies for a balanced life at Wheaton!

The Cost of Food, with Simran Lamba

In a regular semester S.O.L.E practices 10. hours a week with added rehearsals leading up to performance days. Finding a balance between academic, socials, and physical health is hard but there are so many ways in which members of S.O.L.E have found ways to make balance possible.

12:00

CAC and the Importance of Community Service, with Lilian Etlinger

In this session, we will reflect on the importance of community service and how CAC has been able to give back to the cancer community.

Colors of Spring, with Celeste Nobrega and Melissa Jernakoff

Come grab a plant, a pot, and some paint and get to decorating back in your room! Post your plant on Instagram and tag Outdoors club and the Equestrian Team, then the best decorated pot will win a prize. We will also have prizes for most Wheaton plant/pot as well. Grab and go table.

DIY Vinyl Apparel, with Madison Kate Dunaway

Bring your own shirt and have a design in mind! In this quick intro to the vinyl cutter, we will teach out how to create a custom design and heat transfer it to your own apparel. Beginners welcome!

Music Groups and Community Support, with Asaada Craig

This panel will discuss the importance of community in the arts and the benefits of building a community for creative expression.

Proposals! How YOU can use your SGA to make an impact, with Abaigeal (Abba) Lypps

In this program members of the SGA will go over how ANY STUDENT can write and bring a proposal to SGA to be voted on, give examples of what you can do with that, and show you how to write a good proposal in the form of an interactive presentation.

Queer Dialogue at Wheaton: Meet Alliance!, with Sydney Evans

Come learn about Alliance, one of Wheaton's many student-run LGBTQ+ identity clubs! We welcome you to learn about the resources we provide, what our weekly meetings are like, and what we are planning to do on campus this semester!

Social Entrepreneurship Club Information Session, with Ariel Ferreira and Katrin Anwar

The SE Club creates a space at Wheaton College for students to come together and share ideas, as well as work together to build on them. Our goal is to create a community within our club that provides support for creative individuals and help them develop solutions to social, cultural, or environmental issues. Make sure to join our program to learn more about our club, what we do, and events that you can look out for!

Your Personality through East Asian Food, with Jane Kim

Come join EASA in learning a little bit more about yourself through a East Asian food themed personality quiz! Learn which type of dish you're most like and why, while also getting to know a little more about each of us in both EASA in general and on the Exec Board. Also, at the end of the program we will be teaching those that stay a few different everyday words in several different East Asian languages such as Chinese, Japanese, and Korean!

12:30

MAP cohort meetings for all first year students

Business & Management: Your Career After Wheaton, with Leanna Lawter

Join three alumni back to participate in a panel discussion about their career experiences after Wheaton. We will use a questions and answers format.

1:30

Calling All Creators: Rushlight Literary Magazine Info Session, with Sydney Evans

Come learn about Rushlight Literary Magazine, Wheaton's official student-run literary magazine since 1855! We publish visual art and writing in an annual issue. Learn how you can have your work featured in this year's issue and how you can be involved in creating our upcoming issue; as well as what new projects we are working on! We will also be doing a small writing prompt to get you in the creative mood!

Chemistry Demos, with Matthew Goodwin

Join me for neat chemistry demonstrations!

Don't Get Stuck in a Rut, with Cameron Glick

Are you finding it difficult to stay busy and to enjoy yourself during this pandemic? Are you feeling trapped in your room and isolated? This session will provide strategies to not "get stuck in a rut."

Fireside Chats; the Importance of Diverse Thoughts on Campus, with Kyla Goux and Abigail Forrence

Join Roosevelt @ Wheaton in having a student-led conversation on bringing diverse topics to campus and why this is important today than ever before. The second half of the program will be an example of such a discussion.

First-Gen Community Building, with Ishaan Madan

We hope to open up this space for First-Gen and low-income students to foster a community with a cohort from similar backgrounds and experiences. We aim to support and connect First-Gen and low-income students to helpful resources to tackle the challenges we face at a private institution like Wheaton.

Kpop Zumba Workout, with Joseph Joffrion and Margaret Ryan

Come workout to your favorite Kpop songs in this high energy event! This session has a limited number of in-person spots, but can be attended virtually as well. To pre-register for the On Campus option, email ryan_margaret@wheatoncollege.edu

Living Lines with Art Haus: Learn about Art Haus during a contour line drawing activity!, with Emily Gray

Join us in a fun, interactive, and community-building contour drawing activity. There will also be a Q&A about Art Haus. Writing utensil and paper necessary for this event!

Round Table Writing, with Charlotte Berman

This program has a participant come up with a line for a story, then it passes to the next person, then the next, until a collaborative story is created by the group. This serves as a bonding activity that enables people to come up with an inclusive, diverse, (sometimes cohesive) story. It allows people to interact and develop something together.

Sign Language 101, with Mikaela Savarese

You will have the opportunity to learn basic sign language while learning about the deaf community. Topics will include the alphabet, names, and greetings. You will also be able to practice what you've learned and get to know your peers.

Student Film Festival, with Patrick Johnson

Join us to enjoy a selection of short films and animated works produced by Wheaton students and alumni. These films will get you excited about the possibilities of developing creative projects at Wheaton.

Trybe Performance, with Allison Chaves and the Trybe dance group

Join us for a walk-by Trybe performance!

Pre Registration Required

10:00 Spring Virtual Career Fair, with Ally Baldwin

The Spring Virtual Career Fair is for all students interested in speaking with employers about internships, part-time work, or full-time opportunities. There are two options for connecting with employers during the fair. You can sign up for individual conversations, which are ten minutes long OR you can sign up for group sessions, which are thirty minutes long. The goal is for the virtual fair experience to be customized to fit your interests and schedule.

10:40 Semester in the City, with Stephanie Morales

Come learn about Semester in the City! SITC is a program offered to Wheaton students (and beyond) where you can earn a full semester's worth of Wheaton credit to live and work in Boston. Be matched with an internship in the social sector, live in awesome apartments in a dynamic city, and get ready to learn in a hands-on way through two innovative courses on professional development and social change!

11:20 Semester in the City, with Stephanie Morales

Come learn about Semester in the City! SITC is a program offered to Wheaton students (and beyond) where you can earn a full semester's worth of Wheaton credit to live and work in Boston. Be matched with an internship in the social sector, live in awesome apartments in a dynamic city, and get ready to learn in a hands-on way through two innovative courses on professional development and social change!

12:00 DIY Vinyl Apparel, with Madison Kate Dunaway

Bring your own shirt and have a design in mind! In this quick intro to the vinyl cutter, we will teach out how to create a custom design and heat transfer it to your own apparel. Beginners welcome!

Careers & Post-Grad Opportunities

9:20 NIH Fellowships: Alumni Conversations, with Megan Darrell and Carina Sclafani

Join Megan and Carina as they share their experiences in securing a post-graduate health professions fellowship and learn about their first year as fellows. This session is for upperclass students tracking towards the health professions, including but not limited to medicine, physicians assistant, and physical therapy. Looking forward to seeing you then!!

9:20 Managing Financial Independence: Where Do I Start?, with Kyrie Johnson

This session will provide guidance as you think about the next 6 months and help you to start planning for your transition to financial independence.

10:00 Spring Virtual Career Fair, with Ally Baldwin

The Spring Virtual Career Fair is for all students interested in speaking with employers about internships, part-time work, or full-time opportunities. There are two options for connecting with employers during the fair. You can sign up for individual conversations, which are ten minutes long OR you can sign up for group sessions, which are thirty minutes long. The goal is for the virtual fair experience to be customized to fit your interests and schedule.

10:20 Fulbright Student Programs - Post-Grad Fellowship Opportunity, with Steve Viveiros

Come to learn about teaching, studying or doing research abroad after you graduate through the Fulbright Program. This interactive flash session will review the options and details of the program and answer any questions you might have.

10:40 Pre-Health Society Meet and Greet, with Nicholas Kelly

Are you interested in Pre-Health? Stop by the science centers, where we will be waiting to meet you with informational packets catered to underclassmen pre-health students and for students who are interested in pre-health careers. We hope to put some faces behind the names of our group.

10:40 Rhodes, Marshall, Mitchell, Schwartzman - Competitive Post-Grad Fellowships Flash Session, with Steve Viveiros

Come to learn about these competitive fellowships and scholarships. This interactive flash session will review the options and details of the awards and answer any questions you might have.

11:00 Using Social Media For Internships & Jobs, with C.C. Chapman

This session will help you use your social media channels to network and find jobs/internships.

11:00 Watson Fellowship Information Session, with Lisa Gavigan

Learn about the Thomas J. Watson Fellowship post-graduate opportunity and review the application process.

11:20 Watson Fellowship Information Session, with Lisa Gavigan

Learn about the Thomas J. Watson Fellowship post-graduate opportunity and review the application process.

11:40 Fulbright Student Programs - Post-Grad Fellowship Opportunity, with Steve Viveiros

Students will learn essentials of the Fulbright Program and follow-up with advising staff and other faculty mentors to begin planning for this possible opportunity in their future.

12:30 Your Career After Wheaton, with Leanna Lawter

Join three alumni back to participate in a panel discussion about their career experiences after Wheaton. We will use a questions and answers format.

Unique Opportunities

9:20 LEAPS: Design & Fabrication, with Madison Kate Dunaway

The way things are made is changing. Whether they're designing works of art, creating new products, or developing scientific apparatus, Wheaton graduates are entering a world where computer-aided design, rapid prototyping, and advanced manufacturing techniques are the norm. At the same time, core principles of user-centered design, ergonomics, and design thinking have become more important than ever, and employers are increasingly seeking graduates with experience in iterative design and the ability to manage complex projects.

9:20 Activating Events: A History of Wheaton Students Responding to Crises, with Mark Armstrong

Wheaton has seen its fair share of global crises in its 187 years, from wars to civil rights movements to viral pandemics. Each time, Wheaton students found ways to meet the moment. This session will explore several of those historical instances, and attempt to draw parallels to our current moment.

9:20 NIH Fellowships: Alumni Conversations, with Megan Darrell and Carina Sclafani

Join Megan and Carina as they share their experiences in securing a post-graduate health professions fellowship and learn about their first year as fellows. This session is for upperclass students tracking towards the health professions, including but not limited to medicine, physicians assistant, and physical therapy. Looking forward to seeing you then!!

9:20 Study Abroad: Spring 2022 - Plan Ahead for Success!, with Alida Gomez

As study abroad slowly returns to its pre-COVID accessibility, now is the perfect time to start thinking about Spring 2022 programs! Join Alida Gomez from Global Ed to hear about the timeline for applying for programs and scholarships, as well as what study abroad will look like in a "post-COVID" world.

10:00 May Fellows Q&A, with Will Coleman

Get to know the May Fellows program with a Q&A session with members of the May Fellows Advisory Board.

10:00 STEM Fellowships & Scholarships, with Susan Friedman

Come find out about the Goldwater Scholarship and NSF funding opportunities.

10:00 Sustainability Board Ecobrick Stuffing, with Delia MacLaughlin

Join the Sustainability Board for an interactive event as we stuff water bottles with the plastic waste collected from campus residence halls! The bottles will be cemented into bricks for our on-campus pollinator garden.

11:00 FAB Academy Info Session, with Madison Dunaway

This Info Session is intended for students who are interested in applying to participate next year or in the future.

11:20 Semester in the City, with Stephanie Morales

Come learn about Semester in the City! SITC is a program offered to Wheaton students (and beyond) where you can earn a full semester's worth of Wheaton credit to live and work in Boston. Be matched with an internship in the social sector, live in awesome apartments in a dynamic city, and get ready to learn in a hands-on way through two innovative courses on professional development and social change!

11:40 LEAPS!: Introducing Design & Fabrication, Global Fashion, Content Marketing, Social Research, and Criminal Justice, with Karen McCormack

Come learn about career-focused LEAPS in Content Marketing, Social Research, Global Fashion, Criminal Justice & Reform, and Fabrication.

11:40 LEAPS: Teaching Second Languages, with Mary Beth Tierney-Tello and Scott Gelber

Learn about a new LEAPS program that will help students develop the skills they need to teach a second language. Students will complement their study of a foreign language with several relevant education courses. In addition, students will complete at least one 1/2 credit course providing practical experience with second language acquisition and teaching methods.

12:00 DIY Vinyl Apparel, with Madison Kate Dunaway

Bring your own shirt and have a design in mind! In this quick intro to the vinyl cutter, we will teach out how to create a custom design and heat transfer it to your own apparel. Beginners welcome!

12:00 Social Entrepreneurship Club Information Session, with Ariel Ferreira and Katrin Anwar

The SE Club creates a space at Wheaton College for students to come together and share ideas, as well as work together to build on them. Our goal is to create a community within our club that provides support for creative individuals and help them develop solutions to social, cultural, or environmental issues. 1:30 Calling All Creators: Rushlight Literary Magazine Info Session, with Sydney Evans

Come learn about Rushlight Literary Magazine, Wheaton's official student-run literary magazine since 1855! We publish visual art and writing in an annual issue. Learn how you can have your work featured in this year's issue and how you can be involved in creating our upcoming issue; as well as what new projects we are working on! We will also be doing a small writing prompt to get you in the creative mood!

1:30 Student Film Festival, with Patrick Johnson

Join us to enjoy a selection of short films and animated works produced by Wheaton students and alumni. These films will get you excited about the possibilities of developing creative projects at Wheaton.

Compass-related sessions

9:20 LEAPS: Design & Fabrication, with Madison Kate Dunaway

The way things are made is changing. Whether they're designing works of art, creating new products, or developing scientific apparatus, Wheaton graduates are entering a world where computer-aided design, rapid prototyping, and advanced manufacturing techniques are the norm. At the same time, core principles of user-centered design, ergonomics, and design thinking have become more important than ever, and employers are increasingly seeking graduates with experience in iterative design and the ability to manage complex projects.

9:20 Sophomore Experience Session for First Years, with Steve Viveiros, Susan Friedman, Rachel McElaney, and Matt Wheeler

This required session for first year students will review the Sophomore Experience as a curriculum requirement. Why a required experience? How can you use this to your advantage? What are your options? Choose this session if you took: Medical Mysteries, A Better and More Sustainable Future, or Contact as your FYE.

9:40 Compass Options for Sophomores and Juniors, with Karen McCormack

Learn about the options available to sophomores and juniors in the Compass Curriculum, including LEAPS and the Honors & Scholars programs.

10:00 Navigating the Compass Curriculum, with Karen McCormack

Make the most out of your Wheaton education through the various pathways and opportunities in the Compass Curriculum.

10:40 Global Honors: Global Perspectives and Careers, with Fran F de Alba

Round table presentation with two alumni presenting for 5 mins on the benefit and need of having a global perspective and how that has helped them in their careers.

11:00 Taylor & Lane Scholars Info Session, with Leah Niederstadt

Join us to learn more about becoming a Taylor & Lane Scholar and to ask any questions you may have about this social-justice focused honors program.

11:20 Eliza Wheaton Scholars Info Session, with Karen McCormack

Learn about why you might consider the Eliza Wheaton Scholars program, how to track your progress toward completion, and why this is a prerequisite for Latin Honors for the class of 2024 and beyond. EWS is only available to first year students.

11:40 LEAPS!: Introducing the Global Fashion, Content Marketing, Social Research, and Criminal Justice, with Karen McCormack

Come learn about career-focused LEAPS in Content Marketing, Social Research, Global Fashion, Criminal Justice & Reform, and Fabrication.

11:40 LEAPS: Teaching Second Languages, with Mary Beth Tierney-Tello and Scott Gelber

Learn about a new LEAPS program that will help students develop the skills they need to teach a second language. Students will complement their study of a foreign language with several relevant education courses. In addition, students will complete at least one 1/2 credit course providing practical experience with second language acquisition and teaching methods.

Health & Wellness

11:20 A Discussion on Mental Health and the College Experience, with Will Coleman

This is an opportunity to see the May Fellows programming in action, please come with your impressions and ideas on the current status of mental health on college campuses! We will host an open discussion based on this article:

<https://www.insidehighered.com/news/2020/07/13/survey-finds-higher-prevalence-depression-among-students-and-difficulties-accessing>

11:20 Burnout - Everyone is feeling it - Now what do we do about it?, with Valerie Tobia
After a year of COVID, most everyone is feeling the effects of burnout in multiple areas of their lives. Join the Counseling Center staff to talk about identifying signs of burnout, how burnout impacts different dimensions of our wellness, and discuss ways to mitigate these symptoms. Students will walk away with tangible skills and ideas of how to care for themselves and their community while we all continue to live in a time of great challenge and change. Note: During this presentation, you will need paper and a drawing utensil.

11:20 Dance Workshop, with Allison Chaves and the students of Trybe Dance Group
Trybe will hold a virtual workshop in which current Trybe members will teach a short dance.

11:40 S.O.L.E.,the Rules of 7, and Student Life Balance, with Candice Appiah and Jernora Gross
In a regular semester S.O.L.E practices 10 hours a week with added rehearsals leading up to performance days. Finding a balance between academic, social, and physical health is hard but there are so many ways in which members of S.O.L.E have found ways to make balance possible. Come learn tips and strategies for a balanced life at Wheaton!

12:00 Colors of Spring, with Celeste Nobrega and Melissa Jernakoff
Come grab a plant, a pot, and some paint and get to decorating back in your room! Post your plant on Instagram and tag Outdoors club and the Equestrian Team, then the best decorated pot will win a prize. We will also have prizes for most Wheaton plant/pot as well. Grab and go table.

1:30 Self-Care & Self-Appreciation: How To Take Care of Yourself When Times Get Tough , with Zoe Garrett

MAP Day is a day for reflection on how you've been doing, how you are, and where you're going. Sometimes, however, it can be hard to focus on those things yourself, so Tulip House is here to chat with you about how things are going for you! Come to our session to have a moment of reflection and at the same time learn how to take care of yourself when times get tough. We'll walk you through ways to care for yourself, but most importantly be grateful for where you've been, where you are, and where you're going.

1:30 Don't Get Stuck in a Rut, with Cameron Glick
Are you finding it difficult to stay busy and to enjoy yourself during this pandemic? Are you feeling trapped in your room and isolated? This session will provide strategies to not "get stuck in a rut."

1:30 Kpop Zumba Workout, with Joseph Joffrion and Margaret Ryan
Come workout to your favorite Kpop songs in this high energy event! This session has a limited number of in-person spots, but can be attended virtually as well. To pre-register for the On Campus option, email ryan_margaret@wheatoncollege.edu

Academic Success

10:40 Navigating The Undeclared Experience, with Susan Friedman
Come explore ways you can explore possible majors and minors to explore.

11:00 Academic Planning with DegreeWorks, with Rachel McElaney
Learn how to navigate and use DegreeWorks as an academic planning tool.

11:00 Declaring A Major: The Process, with Susan Friedman
Come learn how to declare a major and minor.

11:00 Health Professions Advising - for 1st and 2nd Year Students, with Steve Viveiros
Join us to define next steps for course planning and building experience working in health professions.

Community Building

9:20 Activating Events: A History of Wheaton Students Responding to Crises, with Mark Armstrong
Wheaton has seen its fair share of global crises in its 187 years, from wars to civil rights movements to viral pandemics. Each time, Wheaton students found ways to meet the moment. This session will explore several of those historical instances, and attempt to draw parallels to our current moment.

9:20 Restorative Interventions: Coping with Group Conflict and Harm, with Cheylsea Federle
In this session you will learn the first steps in how to respond and heal from conflicts among a group. These skills can be used to intervene when harm occurs as well as prevent harm from happening in the future by establishing shared values and boundaries. You will learn how to use communication skills that are in line with restorative justice, accountability and being trauma- informed.

11:00 Restorative Interventions: Coping with Group Conflict and Harm, with Cheylsea Federle
In this session you will learn the first steps in how to respond and heal from conflicts among a group. These skills can be used to intervene when harm occurs as well as prevent harm from happening in the future by establishing shared values and boundaries. You will learn how to use communication skills that are in line with restorative justice, accountability and being trauma- informed.

11:00 What's the Point of Interfaith Work on a "Secular" Campus?, with Ann Grabowski and Caleigh Grogan
Some student leaders from the Interfaith House and the Interfaith Council will discuss how their work and programming benefits the Wheaton community, how other students can get more involved, and dispel some myths about what "Interfaith" work and dialogue is.

11:40 A guide to student activism, with Danielle McConnell and Mikaela Savarese
There will be a short slide show to provide introductions to the 2-3 panelists speakers introducing key components of student activism and making it their career. These speakers will discuss racial, gender, and environmental activism. We will also share experiences starting and managing community service and nonprofit work. There will be an open Q&A after.

11:40 Current Events in Politics, with Sydney Murphy
Join us for a discussion about current events in politics!

12:00 CAC and the Importance of Community Service, with Lilian Etlinger
In this session, we will reflect on the importance of community service and how CAC has been able to give back to the cancer community.

12:00 Music Groups and Community Support, with Asaada Craig
This panel will discuss the importance of community in the arts and the benefits of building a community for creative expression.

12:00 Queer Dialogue at Wheaton: Meet Alliance!, with Sydney Evans

Come learn about Alliance, one of Wheaton's many student-run LGBTQ+ identity clubs! We welcome you to learn about the resources we provide, what our weekly meetings are like, and what we are planning to do on campus this semester!

12:00 Your Personality through East Asian Food!, with Jane Kim

Come join EASA in learning a little bit more about yourself through a East Asian food themed personality quiz! Learn which type of dish you're most like and why, while also getting to know a little more about each of us in both EASA in general and on the Exec Board. Also, at the end of the program we will be teaching those that stay a few different everyday words in several different East Asian languages such as Chinese, Japanese, and Korean!

1:30 Fireside Chats; the Importance of Diverse Thoughts on Campus, with Kyla Goux and Abigail Forrence

Join Roosevelt @ Wheaton in having a student-led conversation on bringing diverse topics to campus and why this is important today than ever before. The second half of the program will be an example of such a discussion.

1:30 First-Gen Community Building, with Ishaan Madan

We hope to open up this space for First-Gen and low-income students to foster a community with a cohort from similar backgrounds and experiences. We aim to support and connect First-Gen and low-income students to helpful resources to tackle the challenges we face at a private institution like Wheaton.

1:30 Living Lines with Art Haus: Learn about Art Haus during a contour line drawing activity!, with Emily Gray

Join us in a fun, interactive, and community-building contour drawing activity. There will also be a Q&A about Art Haus. Writing utensil and paper necessary for this event!

1:30 Round Table Writing, with Charlotte Berman

This program has a participant come up with a line for a story, then it passes to the next person, then the next, until a collaborative story is created by the group. This serves as a bonding activity that enables people to come up with an inclusive, diverse, (sometimes cohesive) story. It allows people to interact and develop something together.

1:30 Sign Language 101, with Mikaela Savarese

You will have the opportunity to learn basic sign language while learning about the deaf community. Topics will include the alphabet, names, and greetings. You will also be able to practice what you've learned and get to know your peers.

1:30 Trybe Performance, with Allison Chaves and the Trybe dance group

Join us for a walk-by Trybe performance!

Student-led Sessions

10:00 May Fellows Q&A, with Will Coleman

Get to know the May Fellows program with a Q&A session with members of the May Fellows Advisory Board.

10:00 Proposals! How YOU can use your SGA to make an impact, , with Abaigeal (Abba) Lypps
In this program members of the SGA will go over how ANY STUDENT can write and bring a proposal to SGA to be voted on, give examples of what you can do with that, and show you how to write a good proposal in the form of an interactive presentation.

10:00 Sustainability Board Ecobrick Stuffing, with Delia MacLaughlin
Join the Sustainability Board for an interactive event as we stuff water bottles with the plastic waste collected from campus residence halls! The bottles will be cemented into bricks for our on-campus pollinator garden.

10:40 Pre-Health Society Meet and Greet, with Nicholas Kelly
We will be standing outside the science centers with informational packets catered to underclassmen pre-health students and for students who are interested in pre-health careers. We also hope to put some faces behind the names of our group.

11:00 What's the Point of Interfaith Work on a "Secular" Campus?, with Ann Grabowski and
Caleigh Grogan
Some student leaders from the Interfaith House and the Interfaith Council will discuss how their work and programming benefits the Wheaton community, how other students can get more involved, and dispel some myths about what "Interfaith" work and dialogue is.

11:20 Dance Workshop, with Allison Chaves and the students of Trybe Dance Group
Trybe will hold a virtual workshop in which current Trybe members will teach a short dance.

11:40 S.O.L.E.,the Rules of 7, and Student Life Balance, with Candice Appiah and Jernora Gross
In a regular semester S.O.L.E practices 10 hours a week with added rehearsals leading up to performance days. Finding a balance between academic, social, and physical health is hard but there are so many ways in which members of S.O.L.E have found ways to make balance possible. Come learn tips and strategies for a balanced life at Wheaton!

11:40 The Cost of Food, with Simran Lamba
In a regular semester S.O.L.E practices 10. hours a week with added rehearsals leading up to performance days. Finding a balance between academic, socials, and physical health is hard but there are so many ways in which members of S.O.L.E have found ways to make balance possible.

11:40 AA guide to student activism, with Danielle McConnell and Mikaela Savarese
There will be a short slide show to provide introductions to the 2-3 panelists speakers introducing key components of student activism and making it their career. These speakers will discuss racial, gender, and environmental activism. We will also share experiences starting and managing community service and nonprofit work. There will be an open Q&A after.

12:00 Queer Dialogue at Wheaton: Meet Alliance!, with Sydney Evans

Come learn about Alliance, one of Wheaton's many student-run LGBTQ+ identity clubs! We welcome you to learn about the resources we provide, what our weekly meetings are like, and what we are planning to do on campus this semester!

12:00 Social Entrepreneurship Club Information Session, with Ariel Ferreira and Katrin Anwar

The SE Club creates a space at Wheaton College for students to come together and share ideas, as well as work together to build on them. Our goal is to create a community within our club that provides support for creative individuals and help them develop solutions to social, cultural, or environmental issues. Make sure to join our program to learn more about our club, what we do, and events that you can look out for!

12:00 Your Personality through East Asian Food!, with Jane Kim

Come join EASA in learning a little bit more about yourself through a East Asian food themed personality quiz! Learn which type of dish you're most like and why, while also getting to know a little more about each of us in both EASA in general and on the Exec Board. Also, at the end of the program we will be teaching those that stay a few different everyday words in several different East Asian languages such as Chinese, Japanese, and Korean!

1:30 Calling All Creators: Rushlight Literary Magazine Info Session, with Sydney Evans

Come learn about Rushlight Literary Magazine, Wheaton's official student-run literary magazine since 1855! We publish visual art and writing in an annual issue. Learn how you can have your work featured in this year's issue and how you can be involved in creating our upcoming issue; as well as what new projects we are working on! We will also be doing a small writing prompt to get you in the creative mood!

1:30 Chemistry Demos, with Matthew Goodwin

Join me for neat chemistry demonstrations!

1:30 Don't Get Stuck in a Rut, with Cameron Glick

Are you finding it difficult to stay busy and to enjoy yourself during this pandemic? Are you feeling trapped in your room and isolated? This session will provide strategies to not "get stuck in a rut."

1:30 Fireside Chats; the Importance of Diverse Thoughts on Campus, with Kyla Goux and Abigail Forrence

You will have the opportunity to learn basic sign language while learning about the deaf community. Topics will include the alphabet, names, and greetings. You will also be able to practice what you've learned and get to know your peers.¹

11:30 Trybe Performance, with Allison Chaves and the Trybe dance group

Join us for a walk-by Trybe performance!

Academic Fair

10:00 Academic Fair: Classics: What Can You Do With a Classics Degree?, with Sierra Proft

This session will introduce you to a classics/ancient studies/language degree, and will explain how earning that degree (major or minor) can lead to more careers than you probably thought! You will hear several alums talk about their paths after Wheaton with a Classics or Ancient Studies degree, and we will end the session with an exciting game of Classics Degree Career Path bingo!

10:00 Academic Fair: Computer Science and your Future, with Mark Leblanc and Mike Gousie

We will discuss the introductory steps for starting courses in the computer science major and minor. Faculty will share how our introductory content (computational thinking, learning to program in Python and C++) are the foundations to prepare for a world of computing work beyond Wheaton.

10:00 Academic Fair: Environmental Science and Environmental Studies, with Scott Shumway

Meet the department and plan for a major in Environmental Science or a minor in Environmental Studies.

10:00 Academic Fair: Hispanic and Italian Studies: Languages and Cultures, with Alberto Bianci

Are you interested in Latin American, Italian or Spanish cultures? Come and find out how the cultural and linguistic competence provided by the Department of Hispanic and Italian Studies adds value to your Liberal Arts education and increases your professional opportunities in business, fashion and design, the food and wine industry, and more.

10:00 Academic Fair: History, with Annie Cecil

Learn about the history major and meet the faculty.

10:00 Academic Fair: Neuroscience, with Robert Morris

What is Neuroscience? What is the Neuroscience major? What can you do as a Neuroscience major at Wheaton and beyond? A brief presentation will answer these questions with time for Q&A.

10:00 Academic Fair: Philosophy: What it is, and What You Can Do With it, with John Partridge

Learn about philosophy at Wheaton by meeting current students and hearing from recent alums. See how there are paths through the major or minor that link you to your other interests. Discover how philosophy trains students in critical thinking and analytical reasoning. Learn how developing these skills and various intellectual virtues prepares you for success on the job market and for living a life of meaning and integrity.

10:00 Academic Fair: Women's and Gender Studies, with Francoise Rosset

Are you interested in the Women and Gender Studies Program? Come ask your questions, hear about the program and learn more!

10:20 Academic Fair: Biology at Wheaton, with Laura Ekstrom

Come check out the new and exciting changes that are taking place in the Biology Department! We have been working to develop new programming to make both our courses and research opportunities more equitable and attainable. Come learn how to navigate your path in Wheaton Biology - whether you're just starting out or already in it!

10:20 Academic Fair: Creative Writing Program Information, with Kent Shaw

The Creative Writing Program offers introductory and advanced workshops every semester. This session will offer a view into the newly redesigned major, as well as the opportunities in writing fiction, playwriting, or poetry for non-majors.

10:20 Academic Fair: Education, with Scott Gelber

This session will introduce students to Wheaton's teacher licensure programs.

10:20 Academic Fair: Engaging in Music at Wheaton, with Ann Sears

Join us for an informal discussion about academic and musical opportunities for all students at Wheaton, including how live performance will return to campus.

10:20 Academic Fair: Physics, Astronomy and Engineering, with Jason Goodman

Are you considering a major or minor in physics or astronomy? Thinking about our engineering dual degree program? Attend this short info session to learn more about your next steps!

10:20 Academic Fair: Political Science and International Relations Majors, with Jon Chow and Nick Dorzweiler

Join Profs. Jon Chow and Nick Dorzweiler for an overview of the Political Science and International Relations Majors.

10:20 Academic Fair: Public Health information session, with Michael Berg, Gabriela Torres, and Kate Mason

Come learn about the Public Health major and minor and hear about our classes and programs

10:20 Academic Fair: Religion, with Jefferey Timm

Drop by and get answers to your questions about the Religion major!

10:20 Academic Fair: Russian Studies at Wheaton, with Francoise Rosset and Tom Dolack

Join us for an introduction to Russian at Wheaton!

10:40 Academic Fair: Anthropology, with Gabriela Torres

Understanding culture is key in today's world whether it is in the fields of healthcare, marketing, education, or politics. Come and learn how understanding culture can add to your ability to make effective and social justice-inspired change in the career of your choosing.

10:40 Academic Fair: Biochemistry - Is it Right for You?, with Jennifer Lanni and Hilary Gaudet

This session will provide an overview of the Biochemistry major and its courses. You will meet the academic advisors for Biochemistry, Professor Hilary Gaudet (Chemistry) and Professor Jenny Lanni (Biology) and learn about the recommended course progression for students considering this major. You will also learn about how this major can aid those pursuing a pre-health track to fulfill their course requirements.

10:40 Academic Fair: Bioinformatics, with Shawn McCafferty and Mark LeBlanc

Interested in the exciting, rapidly evolving field of Bioinformatics? Intrigued by the nexus of computer science, statistics, and biology? Then come join us for the Bioinformatics MAP session, where Professors Mark LeBlanc (CS) and Shawn McCafferty (BIO) will discuss the Bioinformatics major, along with career and research opportunities in this increasing important field.

10:40 Academic Fair: English and Writing Studies, with Winter Jade Werner

Join us for a presentation of Literary and Writing Studies at Wheaton

10:40 Academic Fair: French, with Jonathon Walsh

Drop by to meet French faculty! You'll receive an introduction to the requirements for the French major and minor, how it combines with other disciplines, and the benefits of studying abroad in a French-speaking country.

10:40 Academic Fair: German, with Tessa Lee

What are the opportunities during your time and after studying German at Wheaton? What about internships? scholarships? friendships? and other possibilities with a degree in German? Join us to find out or ask questions.

10:40 Academic Fair: History of Art, with Ellen McBreen

*Join students and profs in the History of Art for a caption contest introduction to Sophomore Experience fall classes exploring careers in the arts. How can our Fall 2021 classes get **you** on track for a life-long connection with the visual arts?*

10:40 Academic Fair: Psychology, with Rolf Nelson

An introduction to the Psychology major and careers in the field.

10:40 Academic Fair: Sociology, with Justin Schupp

Come explore the possibilities for classes, internships, and careers with a sociology major or minor.

11:00 Academic Fair: Film and New Media Studies, with Josh Stenger

This session is designed for anyone who is interested in learning more about the Film and New Media Studies major and the many pathways through it that can help you reach your academic, artistic, professional, and/or personal goals. In addition to going over major requirements and courses, the session will also include information about related study abroad programs, internship opportunities, and popular double major combinations.

11:00 Academic Fair: Math Major Chats, with Rachel Decoste

Come meet with some students who are pursuing a math major. Hear about their experiences and ask questions. Faculty will also be present.

11:00 Academic Fair: NEW MINOR Global Literary Studies

Join us to explore the NEW Global Literary Studies Minor. This exciting minor offers students the opportunity to read and interpret literature and texts of different cultures and languages with a broadly defined focus on social justice ideals as understood within rich and diverse international contexts across time.

What Can I Learn During MAP Day?

These checklists may help you to think about how to structure your day.

First Year

- Learned about the Sophomore Experience
- Connected with an academic department/faculty member
- Met with my MAP Advising cohort
- Learned how to use DegreeWorks
- Attended a student-sponsored event
- Did something to care for myself or have fun
- My goal:
- My goal:

Sophomores

- Learned more about a major/department of interest
- Explored study abroad or other unique opportunities
- Learned about an honors & scholars program or LEAPS
- Attended a student-sponsored event
- Talked with a faculty or staff member or met someone new
- Did something to care for myself or have fun
- My goal:
- My goal:

Juniors

- Learned about post-graduate fellowships
- Talked with an employer through the Career Fair
- Learned about LEAPS, Global Honors, or Taylor & Lane Scholars programs
- Set up an account in Handshake
- Attended a student-sponsored session
- Did something to care for myself or have fun
- My goal:
- My goal:

Seniors

- Connected with an employer at the Career Fair
- Learned about managing finances after graduation
- Connected with a Wheaton alum
- Learned something new about Wheaton
- Attended a student-sponsored session
- Did something to care for myself or have fun
- My goal:
- My goal:

A non-exhaustive list of other things that you can do during MAP Day:

Learn about a new skill (languages, sign language 101, dance, discussion, writing)

Meet a new faculty or staff member

Learn wellness tips

Meet a new classmate

Connect with an academic department/program

Learn about DegreeWorks for academic planning

Begin planning for summer or next year

Learn something new about Wheaton

Take time to reflect on my goals

Do something outside

Watch some dance

Do something creative

Commit to one action planning step

Participate in a conversation about current events

Learn something about countries other than the US

Try out a new activity

Learn more about the Health Professions

Learn how to be a create a stronger community

Make something

Learn a little sign language

Do a Zumba workout

Learn about the maker spaces
